Hi Dave,

It says "...the Administrator shall revise the toxics release inventory in accordance with such section 313(d).." and 313(d) starts off with:

(d) Revisions By Administrator. --

(1) In General. -- The Administrator may by rule add or delete a chemical from the list described in subsection (c) at any time.

(2) Additions. -- A chemical may be added if the Administrator determines, in his judgment, that there is sufficient evidence to establish any

one of the following:

Ex. 5 Deliberative Process (DP)

Here's the requirement:

(3) ADDITION TO TOXICS RELEASE INVENTORY.—Subject to subsection (e), if the Administrator determines under paragraph (1) that a substance or a class of substances described in paragraph (2) meets any one of the criteria described in section 313(d)(2) of the Emergency Planning and Community Right-To-Know Act of 1986 (42 U.S.C. 11023(d)(2)), the Administrator shall revise the toxics release inventory in accordance with such section 313(d) to include that substance or class of substances not later than 2 years after the date on which the Administrator makes the determination.

Ex. 5 Deliberative Process (DP)

-Dave

Thanks. It sounds like I need it today, unfortunately. There's some sort of budget exercise happening, it seems.
